

LOVE2BREW

DUBBEL DOWN (ALL-GRAIN)

True to style the love2brew Belgian Dubbel is a complex brew that is delicious and deceptively strong. A rich, malty taste with some slightly dark fruit flavor (think raisins and plums), hints of caramel, and very little residual hop bitterness; this Abbey style beer is sure to satisfy even the most discerning of palates. Medium bodied this brew pairs very well with multiple foods from meats, to cheese, to Vanilla ice cream!
