## ENGLISH DARK MILD (ALL-GRAIN)

Dating back to the 18<sup>th</sup> century English Mild beers were once the most popular beer in England often enjoyed mainly by the industrial laborers of the day. Milds are malt forward beers with very little hop flavor or aroma and are defined as a session beer due to their low alcohol content. Our take on this historical gem focuses on a distinct toast profile with slight notes of chocolate and toffee. In an additional effort to keep this brew true to style we only carbonate it moderately as it is traditionally served in casks. An ideal brew choice if you're looking for a beer that is flavorful, refreshing, easy to drink, and can be enjoyed pints at a time with family and friends! Experience your own piece of history today!

### KIT STATISTICS

- 2 Weeks Primary Fermentation
- 1 Week Bottle Conditioning
- Original Gravity: 1.037
- 3.2% ABV (Estimated)
- IBUs: 21.9
- SRM: 22.6 (Brown)
- 60 Minute Boil

### HOME BREW KIT CONTENTS
